

16 SEP 1980

MEMORANDUM FOR: Chief, Logistics Services Division

FROM:

Chief, Plans and Programs Staff, OL

SUBJECT: Maximum Tire Pressure

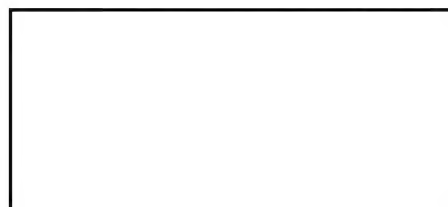

REFERENCE: Memorandum for the Heads of Executive Agencies
and Establishments from GSA, dtd August 15, 1980,
same subject (ER 80-5051; DDA 80-1976; OL 0 3995)

1. Referenced memorandum recommends that tire pressure be increased to maximum pressure in order to achieve a further reduction in fuel consumption.

2. Attached for your concurrence is a draft Headquarters Notice advising employees that the Motor Pool has adopted the policy of inflating tires to maximum pressure and encouraging individuals to adopt a similar policy.

3. GSA has advised that they will make sunvisor sleeves available listing the five major precepts of Driver Energy Conservation Awareness Training. The Plans and Programs Staff will order the sleeves for the Motor Pool as soon as GSA releases the ordering instruction.
